The Civic association of Pickens, after having been disbanded for the winter has again re-organized and with the coming of spring has begun work in earnest which we hope will be most beneficial to our town.

The following are some resolutions adopted by the association:

1. Look carefully after the sanitary condition of the town and in the spring have a time set apart for cleaning up work.  
2 Take some portion of our town and beautify it.

3 Use one kind of shade trees on a street and do not use Carolina Poplar et al.

4 Do every thing in our power to prevent the spread of diseases.

The court house square is to be enclosed and as soon as this is completed the association will begin the work of beautifying the town by making this a most attractive and enviting spot.

### Women Who Wear Well.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliancy vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness.

As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and form witness to the fact in renewed comeliness. Nearly a million women have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. Made wholly of those native, American, medicinal roots most highly recommended by leading medical authorities of all the several schools of practice for the cure of woman's peculiar ailments.

For nursing mothers, or for those broken-down in health by too frequent bearing of children, also for the expectant mothers to prepare the system for the coming of baby and making its advent easy and almost painless, there is no medicine quite so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthening nerve-adapted to woman's delicate system of large experience in the treatment of woman's peculiar ailments. Dr. Pierce may be consulted free of charge. Address Dr. R. C. Invalids' Hotel, and Surgical Buffalo, N. Y.
